A CURE FOR ALL!

HOLLOWAY'S OINTMENT!!

Citizens of the Union:—

You have done me the honour, as with one voice, from one end of the Union to the other, to stamp the character of my Ointment with your approbation. It is scarcely two years since I made it known among you, and already, it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY,

38 *Corner of Ann and Nassau Sts, New York.*

ASTONISHING CURE OF SORE LEGS AFTER NINE YEARS STANDING.

Copy of a Letter from Mr. W. J. Langley, of Hunnsville, Yadkin county, North Carolina, U. S., dated November 1st, 1853.

☞ READ HIS OWN WORDS. ☜

To Professor Holloway:

Sir,—It is not my wish to become notorious, neither is this letter written for the mere sake of writing, but to say, that your Ointment cured me of one of the most dreadful cutaneous diseases that flesh is heir to, and which was considered by all who knew me to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every thing else that I heard of, I resigned myself at last of being cured; but a friend brought me a couple of large pots of your Ointment, which caused the sores on my legs to heal, and I entirely regained my health, to my agreeable surprise and delight, and to the astonishment of my friends.

(Signed) W. J. LANGLEY.

AN EXTRAORDINARY CURE OF A BAD BREAST WHEN NEARLY AT THE POINT OF DEATH.

Copy of a Letter from Mr. R. Durant, New Orleans, November 9th, 1853.

To Professor Holloway, 38, Corner of Ann and Nassau streets, N. Y.

Dear Sir,—It is with heart felt gratitude I have to inform you that by the use of your Ointment and Pills, the life of my wife has been saved. For seven years she had a bad breast, with far running wounds, (out of a cancerous nature.) I was told that nothing could save her. She was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your medicines from Messrs. Wright & Co., of Chartres street, New Orleans. I send this from "Hotel des Princes," Paris, although I had written it at New Orleans, before we finally left, at that time, not knowing your address at New York.

(Signed) R. DURANT.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs,	Fistulas,	Scalds,
Bad Breasts,	Gout,	Sore Nipples,
Burns,	Glandular Swellings,	Sore throats,
Bunions,		Skin diseases,
Chilblains,	Lumbago,	Scurvey,
Chapped hands,	Piles,	Sore-heads,
Contracted and stiff Joints,	Rheumatism,	Ulcers,
	Salt Rheum,	Wounds.

**Sold at the Establishment of Professor Holloway, 38, corner of Ann and Nassau Streets, New York; also by all respectable Druggists and Dealers in Medicines throughout the United States, in Pots, at 37½ cents, 87 cents, and $1 50 cents each. To be had Wholesale of the principal Drug Houses in the Union.

☞ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of Patients in every disorder, are affixed to each Pot.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire, as well as the most skilful burglar. To MERCHANTS, JEWELLERS and BANK DIRECTORS, we would only say, examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done in a plain, straightforward way, without resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs Pond & Hitchcock's Oil Store was situated directly under the Pearl-st House, and was totally consumed in that great fire of August 23d.

New York, Aug. 23, 1853.

Messrs. Wm. McFarland & Co.:

Gents:—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you, preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was covered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat, it remained true to its name, and its contents when taken out were not even scorched, and hardly bore the smell of fire. To any one who is in want of a superior Safe, a perfect safeguard against fire, we cheerfully recommend your manufacture, having had a personal experience of their excellence. Yours truly,

B. F. POND & HITCHCOCK.

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

CITY OF BANGOR.

AN ORDINANCE *for the reorganization of the Fire Department.*

SEC. 1. Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and of not less than three Assistant Engineers, and of three companies, each of which is to consist of forty men, and of such additional companies, as shall hereafter be established by the Mayor, and Aldermen.

SEC. 2. Be it further ordained, That the Mayor and Aldermen may from time to time form such additional Engine Companies as the wants of the City may require, but no Company is to exceed forty men in number.

SEC. 3. Be it further ordained, That no person under the age of twenty-one years, shall be admitted into any company, belonging to the Fire Department.

SEC. 4. Be it further ordained, That the Chief Engineer shall be elected annually by ballot in the month of March by the Council in convention, and at such other times as vacancies may occur.

SEC. 5. Be it further ordained, That the Chief Engineer shall have the power to appoint as many Assistant Engineers, and designate their rank, subject to the approval of the Mayor and Aldermen as there are Engine Companies.

SEC. 6. Be it further ordained, That the Engineers shall have, and exercise all the powers, and be subject to all the duties of Fire Wards.

SEC. 7. Be it further ordained, That the Chief Engineer shall appoint the Firemen, and shall have the power to discharge the same; But if any Fireman is aggrieved at his decision, he may appeal to the Board of assistant Engineers who shall have power to reinstate him.

SEC. 8. Be it further ordained, That each Engine Company shall choose a Foreman, two Assistant Foremen, and a Clerk, all of whom shall be confirmed by the Chief Engineer. Each Company shall also cause a roll of its members to be made and kept, and called after each fire, false alarm, and at each meeting of said Company and note on said roll all who are absent.

SEC. 9. Be it further ordained, That each member of any company, who shall be absent from any Fire, False Alarm, or Meeting of said Company, unless for a satisfactory reason given to said Company, shall be fined as follows:—Absence from Fire, one dollar; absence from False Alarm when the roll is called, twenty-five cents; and absence from each meeting of said Company, twenty-five cents. The Clerk of each Company, shall report quarterly to the Chief Engineer all the absences of each member belonging to his company and what amount is due from each member, for fines.

SEC. 10. Be it further ordained, That the Chief Engineer shall be paid annually, the sum of three hundred dollars; each Assistant Engineer, the sum of fifty dollars; and each Fireman the sum of twenty-five dollars on the first Monday of January of each year. Let any Fireman who shall serve for a less time than one year, shall be entitled only to such compensation as the Chief Engineer shall determine. The amount due from each member for fines, shall be deducted from the amount due for his services. And the sums thus deducted shall be kept by the City Treasurer in a separate fund to be called "Firemen's Relief Fund," to be used for the benefit of those members who may be injured at fires, and when needed, for that purpose, may be drawn from the Treasury by the Mayor, and appropriated as the Chief Engineer shall direct.

SEC. 11. Be it further ordained, That on the first Monday of May annually, at two of the clock in the afternoon the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus to exercise the men, and no company shall appear with more than forty members.

SEC. 12. Be it further ordained, That it shall be the duty of the Engineers whenever any fire shall break out in the City to repair forthwith to or near the place where the fire may be; to cause the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire; to require and compel the assistance, of all persons in extinguishing the fire, removing furniture, goods, or merchandise, from any building on fire, or in danger thereof, and to appoint guards to secure the same, and in pulling down or demolishing any house or building, or suppressing tumults and disorder. And it shall be their duty to take care to be preserved throughout the department in going to, working at, and returning from fires, and at all times when companies attached to the department are on duty. And whenever any fire shall occur in either of the adjoining towns it shall be the duty of so many of said Engineers to repair to such towns as shall have been designated for that purpose by said Board of Engineers.

SEC. 13. Be it further ordained, That in case of the absence of the Chief Engineer at any fire, the Engineer next in rank who may be present, shall possess his powers and perform his duties.

SEC. 14. Be it further ordained, That all persons who may be present at any fire, shall obey the direction of any Engineer, and render their services in extinguishing the fire and protecting property exposed thereto, in such manner as they may be required to do by any Engineer, and every person who shall refuse, or neglect so to do on request of said Engineer, shall forfeit and pay to the city, the sum of Ten Dollars to be recovered in an action of debt in the name of the City Treasurer to the use of said City. And it shall be the duty of the Engineers to report to the Mayor and Aldermen all such cases of refusal.

SEC. 15. Be it further ordained, That the Chief Engineer shall have the sole and entire control and command over all engineers and other persons attached to the Fire Department, shall direct all proper measures for the extinguishment of fires, and protection of property, preservation of order, and observance of the fire laws ordinances and regulations. It shall be his duty to examine the condition of the Engines, and of all Fire apparatus, Engine Houses, and other buildings used by the Fire Department, and all the reservoirs, weekly, to keep the reservoirs free from snow and ice during the winter; to superintend the building and repairing of all machines and buildings used in the Fire Department and all the city reservoirs. It shall be his duty to see that the Engines and apparatus are always kept clean and in order for immediate use, that, on their return from fires, they are well washed, cleaned and oiled, and securely housed. He shall keep fair and exact rolls of the respective Engine Companies, specifying the time of admission and discharge of each member, and report the same to the Mayor and Aldermen on the first Monday of January of each year, with the amount of fines due from each member. He shall report to the City Clerk once in each year, all the accidents by fire which may have happened within the city, and the cause thereof, so far as it can be ascertained, and the number of buildings and the value of the property destroyed or injured, and the names of the owners, if known.

SEC. 16. Be it further ordained—That the City Council by a concurrent vote, may remove either of said Engineers.

SEC. 17. Be it further ordained—That the Mayor and Aldermen may from time to time, form as many Hose Hook and Ladder, Bucket and Fire Companies as they deem it expedient, to consist of such number of members as they shall determine.

SEC. 18. Be it further ordained—That the Engineers and members of the several Companies shall wear such caps and badges as the Chief Engineer shall direct, and the Mayor and Aldermen furnish. They shall be furnished at the expense of the city, and remain the property of the city. No other person shall be permitted to wear similar caps and badges except under such restrictions and regulations as the Chief Engineer may direct.

SEC. 19. Be it further ordained, That it shall be the duty of the City Marshal and Constables of the city, on an alarm of fire, to repair forthwith to the place where the fire may be, with their staves or such other badge of office as the Mayor and Alderman shall direct, and use their best exertions, under the direction of the commanding Engineer, to preserve the public peace, and to prevent theft and the destruction of property, and assist in the removal of all suspected persons, for which service the Constables shall receive such compensation as the Mayor and Aldermen may allow.

SEC. 20. Be it further ordained, That if any chimney, stove-pipe or flue, within the city shall take, or be set on fire, the occupant of the house, to which such chimney, stove-pipe or flue appertains, or the person so setting the same on fire, shall forfeit and pay the sum of two dollars. Provided, however it may be lawful for any person to set fire to his chimney, stove-pipe or flue, in the forenoon of any day, when the contiguous buildings are wet with rain, or covered with snow. And it shall be the duty of the Engineers to report to the Mayor and Aldermen the names of all persons liable to the penalty provided by this section.

SEC. 21. Be it further ordained, That the power of making and establishing rules and regulations for the transportation and safe keeping of gunpowder, within the city of Bangor, and granting licenses for the keeping and sale thereof, in the city, pursuant to the provisions of law, shall be exercised and performed by the Chief and other Engineers; and the power and duty of seizing any gunpowder kept or being, within said city, or the harbor thereof, contrary to the provisions of law, shall be exercised and performed by said Engineers, or any one of them. And in case the seizure shall be made by any Engineer, other than the Chief, he shall forthwith report the same to the Chief Engineer, who shall cause said gunpowder to be libelled and prosecuted in the manner prescribed by law. And all the other powers and duties enjoined and granted by the laws of the State, in relation to the sale keeping and transportation of gunpowder, shall be exercised and performed by the said Chief and other Engineers.

SEC. 22. Be it further ordained, That whenever it shall be determined by two or more Engineers, or by the majority of any greater number of Engineers present, at any fire, to pull down or demolish any building which may be on fire, or which it may be necessary to remove to prevent the spread of the fire, the same may be done by their joint order.

SEC. 23. Be it further ordained—That it shall be the duty of the Chief and other Engineers to inquire and examine into all shops and other places, where shavings or other combustible materials may be collected and deposited, and at all times to be vigilant in causing the removal of the same, whenever, in the opinion of any two of them the same may endanger the city; and to direct the owner or occupant of such shop or other place, to remove the same, or cause the same to be removed, at his expense, under the direction of the Engineers.

SEC. 24. Be it further ordained, That when any chimney, stove, or stove-pipe within said city shall be defective or out of repair, or so constructed or placed that any building or other property shall be in danger of fire therefrom, it shall be the duty of the Chief Engineer, or any two Engineers of the Fire Department, to give notice, in writing, to the owner or possessor of said chimney, stove, or stove-pipe, to remove or repair the same. And if such owner or possessor shall, for the space of forty-eight hours after such notice, unnecessarily neglect to remove or effectually repair such chimney, stove or stove-pipe, he shall forfeit a sum not less than two dollars nor more than twenty dollars; and he shall be liable to a similar forfeiture for every week he shall so unnecessarily neglect to remove or effectually repair the same, after the termination of the said forty-eight hours.

SEC. 25. Be it further ordained,—That if said owner or possessor shall unnecessarily neglect to remove or effectually repair such a chimney, stove, or stove-pipe, within forty-eight hours after notice as aforesaid, it shall be lawful for the Chief Engineer to remove or repair the said chimney, stove, or stove-pipe, the expenses of which may be recovered by an action of the case by the City Treasurer against the said owner or possessor.

SEC. 26. Be it further ordained,—That all moneys received for fines, forfeitures and penalties arising under this ordinance, and the laws of the State regulating the storage and transportation of gunpowder, shall be paid to the City Treasurer, to be applied in such way as is or may be provided by law.

SEC. 27. Be it further ordained,—That whenever the members of the several companies shall assemble at the houses entrusted to their care, either on duty or company business, order and regularity shall be preserved. And it shall be the duty of the officers and members to refrain from unnecessarily assembling at said houses. And the utmost care and economy shall be observed in the use of fuel, lights and other property furnished by the city.

SEC. 28. Be it further ordained,—That any member of the City Council may enter within the lines, at any fire wearing a suitable badge to be provided by the Mayor and Aldermen.

SEC. 29. Be it further ordained, That no Fire Engine, or apparatus belonging to the city, shall be used in any trial or contest for superiority with any other Engine or be taken out of the city, except to render assistance at fires in neighboring towns, unless by special order of the City Council.

SEC. 30. Be it further ordained, That "An ordinance establishing a Fire Department for preventing and extinguishing Fires," passed Oct. 16 1838, and "An ordinance additional" to the same passed Feb. 3. 1851 be and the same are hereby repealed.

[Passed Feb. 20, 1854.

SEYMOUR'S GALVANIC ABDOMINAL SUPPORTER.

THIS apparatus possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements beside the galvanic attachment. It has been tested, approved of and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, in the treatment of all Nervous diseases which exhibit themselves under so many different heads, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general application. The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W. EMERSON Druggist, No. 4 Smith's Block, sole agent for Bangor and vicinity.

THE AMERICAN'S FRIEND!

HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my affections towards all American Citizens, and that I entertain for all that concerns America and the Americans, the most lively sympathies, so much so that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done, by taking premises in New York. THOMAS HOLLOWAY,

38, *Corner of Ann and Nassau Sts, New York.*

PURIFICATION OF THE BLOOD, AND LIVER AND BILLIOUS COMPLAINTS.

The citizens of the Union suffer much from disorders of the Liver and Stomach, scarcely any are free from the influence of these destructive maladies, hence life wears fast. The fair sex, perhaps the most handsome in the world, up to a certain period, when, distressing to say, many lose their teeth and good looks, while yet in the heyday of life. Such sad evils may be effectually remedied by continually keeping the blood pure, and the Liver and Stomach in a healthy action, which will flow smoothly, and vegetable plants in a congenial time, where an eternal spring seems to reign.—As it regards the preservation of the human frame, and the duration of life, much can be effected, and I say fearlessly that health and life can be prolonged for many years beyond their ordinary limits, if Holloway's Pills are taken to purify the blood according to the rules laid down for which contained in the directions which accompany each box.

A CASE OF WEAKNESS AND DEBILITY, OF 10 YEARS STANDING CURED BY HOLLOWAY'S PILLS.

Copy of a Letter from Captain John Johnson, Astor House, New York, dated January 5 h, 1854.

To Professor Holloway, 38, Corner of Ann and Nassau streets, New York.

Sir,—It is with the most heartfelt pleasure I have to inform you that I have been restored to health and strength by taking your Pills. For the last ten years I suffered from a derangement of the Liver and Stomach, and was reduced to such an extremity that I gave up my ship, never expecting to go to Sea any more, as I had tried every Remedy that was recommended to me, but all to no purpose; and had given myself up to despair, when I was at last recommended to take your Pills. After using them for three months, the result is that I am now in better health than I have been for eleven years past, and indeed as well as ever I was in my life. You are quite at liberty to make this known for the benefit of others.

I remain, sir, yours respectfully,

(Signed) JOHN JOHNSON.

Admirable Invention!

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cents' worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

FRIDAY, APRIL 21, 1854.

The Advocates of Free Rum in the Field.

The plan of the opponents of the Maine Law to have a candidate of their own for Governor at the coming election, is now rendered quite certain, and it is about as certain that Shepard Cary is to be that candidate. Some of the opponents of the law, who undertook to be leaders in a bad cause and to arrange for a convention in the hope of drawing in the advocates of free rum in favor of somebody for a candidate, have failed in to more adroit man gers, and now go for Mr Cary. The nomination of Mr Cary by the Loco opponents of the Maine Law, and the probable nomination of Anson P. Morrill by the Democratic friends of the law, will so divide the Loco party in this State, as not to leave stock enough to effect a nomination of a candidate with any thing like a moderate show of strength.

The main issue in this State for the coming campaign is made up by the friends of Mr Cary, and he for they determined the matter several months since. There is no dodging the issue of free rum against the Maine Law, or for shortness and significance, rum or no rum, and however some people may strive to hide behind various pretences, they will find them all as porous as ladders, and the issue will force itself upon them and they cannot escape it.

☞ The Alton (Illinois) Telegraph say that the wheat crop in that vicinity is most promising. This is a most extraordinary announcement, for the cry has been annually made since our earliest remembrance upon the subject, that the great staple crops west and south were likely to prove partial if not entire failures. This cry comes up to us from the south now caused by the recent cold weather of frosts and snows, and this cheering news from Illinois is truly refreshing. Let the breadstuffs of the great south and the fertile west prove more than an average—superabundant even—and they will be more than wanted. In time of wars' alarms and disturbances agriculture suffers greatly by the withdrawal of laborers from her peaceful fields to those of sanguinary strife, causing scarcity where before the horn of plenty was overflowing with the bountiful gifts of God and gaunt want stalks abroad pinching all classes and conditions in life who come within the reach of its baneful influence. Consequently all sorts of agricultural products will be likely to command high prices, and Maine ought to raise every bushel of Indian corn consumed within her borders, besides a large surplus of potatoes to send abroad. Farmers of Maine, think over this matter, and see what can be done in the Dirigo State in the agricultural line. The great war in Europe now but just commenced, will effect, more or less, the agricultural operations of every nation on that continent, and all our farmers should prepare to take advantage of this circumstance.

The Killing of Birds.

The time of the singing of the birds has come, and the birds give to all, particularly to early risers, sweet, joyous concerts, awakening hope at the opening of the genial season and adding fresh charms to the glorious mornings of spring. We could dwell long and gladly upon this theme, and yet fall short of the reality, and feel how poor our use of words to express its delights.

But there is a shady and dark side, alas, that it should be so. The sweet songsters poising their painted wings about our dwellings and filling the air with their carols and rejoicing all our hearts as they give expression to their own, are followed day by day, in our city, by boys armed with guns and who truth early shoot them down for the miserable satisfaction, infernal in its character, of seeing how beautiful a thing of God's make they can destroy. It almost seems that it would be a mercy to the community to have the discharge reversed and make the slayer the victim, by killing the miscreant instead of the bird!

We would urge it upon parents and teachers and upon our citizens generally and upon the police of the city, to make a united effort to stop this wanton destruction of birds. The birds are of use as well as of pleasure. Their spring visits benefit us all in the destruction they cause of bugs, flies and grubs, and the eggs of these that they devour. They come about our dwellings seeking protection, to build their free homes, rear their young, and charm us with their melody. Spare them, then, we do beseech of every boy, and let all enjoy the pleasure of seeing and hearing the birds. Within a few days many cheeks of children have been wet with tears in seeing the robins they had begun to love, shot down and dying at the feet of boys. This killing of birds is in violation of the law of the state and an ordinance of the city, and every good citizen should be prompt in applying the law in order to prevent the outrage of the killing of birds.

Fatal Accident at Dedham.

To the Editor of the Whig and Courier:

Yesterday a sad accident occurred at the gang saw mill of Messrs. Parker, Pearl & Spofford in a few hours after it was put into operation for the season. Two officious men came into the Mill and wished to tend the edger for a few minutes, in doing so through their carelessness, a board was thrown by the saw striking the regular tender, Mr. Benona Black, in the abdomen, causing his death after some hours of excruciating pain. Mr. B. was a man in humble circumstances, but esteemed and respected by all of the community, particularly so by his employers and fellow workmen, as a kind father, obliging neighbor and companion, and an industrious, faithful workman, whose fate is lamented by every one.

The people of this town, almost without exception, are true friends of temperance; and to this cause and their habits may be attributed the exemption from serious accidents which this people have happily enjoyed, this being the firstone except one death by drowning. Nor should the aforesaid be an exception, as the two individuals named as contributing to the accident were neither residents of the town nor temperance men.

Dedham, April 18, 1854.

☞ We have received an anonymous communication relative to what the writer says is the open sale of liquor in a ely closet on of sight! We shall pass the paper over to the City Marshal.

The writer of the article claims to be a personal friend to us but we doubt it, believing that such messages come not from friends, but quite the contrary. We see no reason whatever for changing in the slightest degree what we have said as to the operations of the Maine Law, and every day adds testimony to the fact that the existence of the law and its general execution are so very favorable as to cause the most unquestionable desire that it should be executed with the utmost rigor against every and all offenders, let who will suffer its penalties in purse and in prison. How happens it that the haters of the law, because they are in favor of free rum, talk so much about the severity of the penalties of the law, and then turn round and complain with equal unction because the penalties are not enforced? Their talk is that the penalties are crushing their abilities, and their complaint is that these penalties are not enforced. Have patience, gentlemen, and if the present enforcement of the law does not suit you, other and more numerous specimens of its enforcement will no doubtless be afforded to you. The friends of the law and of its vigorous enforcement do not intend to take any steps backward.

☞ Messrs A. & R. B. Dunning offer for sale a large and choice lot of fruit trees of their own raising. They have also fruit bearing shrubs, ornamental trees and shrubbery, and vines, a matter of interest to all cultivators of the soil and all lovers of rural taste and rural art. Our friends should give them a call and examine their stock.

☞ Thomas Bencroft handed us yesterday very handsome specimens of Blue Pearmain apple raised in his garden. This fruit has succeeded here in nearly forty years, the tree upon which these specimens grew having been here for that time.

☞ A bill has passed the Legislature changing the name of the town of Kennebec in Kennebec county to Manchester.

☞ A joint order has passed both branches of the Legislature to a final adjournment to-day.

☞ It is said that more than four thousand tons of shipping will be built at Pittston this year.

☞ The Executive has vetoed a bill to remove obstruct... from Machias river.

Disaster in the Late Storm—Probable Loss of 100 Lives.

New York, April 18.

An unknown ship of some 800 or 900 tons went ashore in the storm on Saturday night on Long Beach, about three miles below Barnegat inlet. She was first seen at seven o'clock on Sunday morning, a one hundred yards from the shore with her ... it gone, and the sea breaking wildly over her. She appeared to have over 100 persons on deck all huddled together at the stern so as to avoid the waves which were continually washing over the forward part. When our informant left on Sunday morning, the wreck master, Mr Jennings, was making every preparation to proceed to the vessel as soon as the gale had abated, but little something was done during the day, as our boat went to pieces, as few vessels could have withstood in such a position the violence of the storm of Saturday night.

She has sails ... supposed to be American, she had no signal flying. From her position it was supposed she had either broken her back, or strained herself on the bar. There were no signs on the yards, and the rigging appeared to be very much damaged. A steamer was sent down to her to-day.

Two other vessels were ashore in the vicinity—one was breaking over Barnegat Shoals and would probably go to pieces; the other had been driven ... a ... above Barnegat. As their tonnage was probably small, the crews have most likely escaped.

There were two other ships observed at the same time, about five miles from land, and it was feared they would be driven ashore also. Both appeared to be endeavoring to claw off, but the gale was blowing so tremendously that it was doubtful if they could succeed.

Later.—The ship ashore at Squam Inlet, is the Underwriter, of Merritt, and Comes' line from Liverpool. She lies head to sea and apparently in an easy position. The sea was running so high when our informant left, that she could not be boarded.

Nothing further from the ship ashore near Barnegat. The Underwriter is 1,400 tons burthen and has many passengers on board. Steam tug Achille has left for the Underwriter, and the ship at Barnegat.

The Underwriter has 440 passengers. The ship was valued at $80,000, and was insured for $75,000.

The Late Storm.

The storm which commenced on Saturday night cleared away yesterday afternoon, leaving the atmosphere mild and pleasant. About three or four inches of snow fell, all of which this vicinity which has mostly disappeared.

As is generally the case, the storm was more severe south and west of this meridian. We learn by the telegraph that a severe snow storm prevailed on Sunday and Monday at Baltimore, Washington, Richmond and Petersburg. At Baltimore, Monday, the snow was seven inches deep. It was feared the young fruit had been killed.

At Philadelphia, also, there was a very heavy snow storm on Saturday and Sunday, and the United States Gazette says it is certain that this storm has done an immense amount of damage to the trees and plants of the surrounding country, and short crops of fruit may be expected as a consequence.

The storm commenced in New York on Friday evening, and prevailed with short intermissions to Monday evening. At Albany a heavy snow storm set in on Friday night, and at Buffalo the storm has continued four days.—Boston Journal, 19th.

New York, April 18.

The correspondent of the Courier and Enquirer says the vote on the Gadsden treaty stood 27 for to 18 against. The vote was to a degree sectional.

It is probable the Mesilla valley will be immediately occupied by Governor Garland, and that a special minister with full powers will be sent to Mexico.

New York, April 18.

A despatch from New Orleans says there was a rumor in that city to the effect that 50 Americans had been arrested at San Blas, on the Pacific coast of Mexico for landing without passports, and were sentenced to be shot.

The Toronto North American states that the absurd story of a Russian invasion of the Provinces, is likely to be followed by a matter-of-fact affair—the organization of a Provincial army, which the ministers intend to use as a means of securing themselves in power, through the distribution of the offices involved in the scheme.

Maine Legislature.

SENATE.

Tuesday, April 18.

The order of the Senate to adjourn to-morrow was reconsidered, and Friday next agreed on.

Bill for the protection of salmon, shad and alewives in Penobscot river and tributary streams, came from the House referred to the next Legislature. The House concurred.

Finally passed—Resolve for the payment of additional roll of accounts, No. 34; bill to prevent the destruction of fish in Webster's Pond in Vassalboro; additional to incorporate the State Bank; to make valid the acts of Wm. K. Lancey, as Justice of the Peace; authorizing the County Commissioners of Sagadahoc county to borrow money; to amend an act entitled an act to incorporate the city of Augusta; to authorize the city of Bath to elect directors to represent stock owned by said city; authorizing First Congregational Society in Eastport to alter or rebuild their Meeting House; in relation to original settlers on No. 93 in Bangor; additional to incorporate the city of Rockland; additional to chapter 25 of the Revised Statutes; to incorporate Mechanic's Bank; resolve in favor of temporary clerks in office of Secretary of State; to legalize the doings of West Bath; resolve authorizing Cape Elizabeth, to raise money in aid of Portland and Cape Elizabeth Steam Ferry; resolve making an appropriation for religious services at the Insane Hospital; in favor of Sanford Noble.

Bill for raising and equipping volunteer companies of Militia, came from the House amended by striking out the 9th section. The Senate receded and concurred in the amendment, and passed the bill to be engrossed.

HOUSE.

Mr Hill of Bangor introduced Resolves in favor of claimants for French spoliations, and expressing the sentiment of the Legislature that they should be at once adjusted. Adopted.

Mr Baker of Hallowell introduced a resolve for paying E. M. Thurston $125 for services in making up his last annual report after his office had ceased to exist.

Mr Hill of Bangor moved that it lie on the table. Adopted.

Mr Morrill of Augusta, from the Judiciary committee, reported that a resolve to amend the law in regard to the promulgation of the public laws, by giving newspapers $10 instead of $5, additional to one dollar per hundred. Read once.

Finally passed—Bill to legalize the doings of West Bath; to make valid doings of W. K. Lancey as justice of peace; resolves authorizing County Commissioners of Sagadahoc county to borrow money; making appropriation for religious services at Insane Hospital; authorizing Cape Elizabeth to raise money in aid of steam ferry; in relation to original settlers on lot numbered 93 in Bangor. bills authorizing city of Bath to elect directors to represent stock owned by said city; additional to chapter 25 of revised statutes; for the preservation of fish in Webber's pond; additional to city charter of Rockland; authorizing the first Congregational Society in Eastport to alter or rebuild meeting-house; resolve in favor of Sanford Noble in favor of the temporary clerks in the Secretary of State's office; to change name of town of Kennebec to Manchester; to abolish duties on pot and pearl ashes; to incorporate State Bank; to incorporate the Machias Bank; to provide a tribunal for regulating the joint business of Railroad companies; additional to act establishing county of Sagadahoc; to incorporate the town of Ashland; additional to an act to incorporate the Bath Mutual Marine Insurance Co.; resolves in favor of Astor Library in favor of Wm. Cowperthwait, providing a seal for the office of Adjutant General; to correct the State valuation; in favor of Henry W. Paine and Lot M. Morrill.

XXXIIId CONGRESS.

Washington, April 18.

SENATE.

Several petitions and memorials were presented—among them one from a Vermont by Mr Sumner, against paying the Amistad slave claim.

Another one was presented by Mr Cass, from Jewish citizens, relative to religious toleration abroad.

Mr. Everett, reported a bill for the settlement of the Spanish claims under the Florida treaty.

A resolution by Mr Hamlin was adopted, directing inquiry into the expediency of allowing all the States to exchange the flint lock of small arms for percussion muskets and rifles.

A bill was passed allowing the exchange of school lands in Alabama.

After holding an executive session adj.

HOUSE.

The consideration of the bill increasing the salaries of clerks, &c., in the Executive department was resumed and defeated. A motion to refer the matter to the Committee of the Whole was unsuccessful.

The bill for the relief of the Burlington University was passed.

The Homestead bill was then taken up and Mr Pettit addressed the House in its favor. After some further debate and the adoption of a few amendments, the bill passed.

Mr Lane of Oregon introduced a bill providing for a State government and the admission of Oregon into the Union. Referred.

The House then went into committee on the West Point bill.

Rejection of the Gadsden Treaty—Rumors of War.

Washington, April 18.

The Gadsden treaty was rejected in Executive session yesterday by a decisive vote.—Twenty-six to eighteen is about the division, but nothing definite as to the details can be known, the injunction of secrecy not having been removed. Much speculation exists as to the effect of the rejection. It was intimated by the President and certain members of the Cabinet, while the treaty was under discussion that the refusal of the Senate to ratify it would be followed by an immediate war with Mexico, the President thinking himself called upon to seize upon the Mesilla valley, let matters turn out as they may. This intimation was looked upon as an attempt to intimidate Senators, and by those who are best informed here, it is supposed the President will appoint another Commissioner to negotiate a treaty, rather than have recourse to war under existing circumstances. The development of the policy of the Cabinet in the affair are anxiously looked for.

The editor of the Jacksonville Republican, in a private note accompanying an extra, containing an account of the destruction of Jacksonville by fire, on the 6t instant, says:

Every press in the place was destroyed, and the Extra was printed with a *shoe brush*, and with the ink manufactured for the occasion from lamp-black and oil. Jacksonville was but a small place, it is no place at all.

Jacksonville, April 6.

More than half a million of dollars, says the Journal of Commerce, was paid last year by the Life Insurance Companies doing business in the city of New York to the families or representatives of deceased members. The average of deaths will call for an equal amount, every year so great is the number of insurances of this class. Of the above sum a very large proportion was paid to families who would have had little or no property without it.

The bill to establish a Superintendent of Public Schools at an annual salary of $1200—and making an allowance for expenses of Teachers' Conventions—passed the House by a vote of 75 to 27. It has also passed the Senate.—Kennebec Journal, 20th.

ARRIVAL OF THE

STEAMSHIP ASIA

AT NEW YORK.

Great Battle momentarily expected!

NATIONAL FAST IN ENGLAND!

DECLINE IN BREADSTUFFS!

New York, April 20.

The steamship Asia arrived this afternoon at one o'clock.

No naval or land engagements had taken place. The fleets were between Batchik and Varna, in the Black Sea, March 27th.

Immense bodies of Turks and Russians are concentrating, and a great battle is momentarily expected.

April 26th is appointed as a national fast throughout Great Britain.

France and England peremptorily refuse the Czar's propositions made in his letter to the King of Prussia.

Breadstuffs have declined. Other markets generally unchanged.

SECOND DESPATCH.

Orders in Council in favor of Russian Commerce!

ENGLISH MARKETS, &c.

The steamship Arabia arrived out on the morning of the 8th of April, and the Washington at Southampton on the same day.

Money is easy. Consols 87¼ to 87⅝.

A riot occurred at Barcelona the 13th. The military were called out and several citizens were killed.

A man named Bacchi has been arrested as the assassin of the Duke of Parma.

THE WAR.

Liverpool, April 8th.

The London Gazette contains an order in council dated April 7th, stating that Russian merchant vessels which at this date shall be in her Majesty's ports in the Indian territories, under the government of the East India Company, or within any of her Majesty's foreign or colonial possessions, shall be allowed 30 days from the time of publication of this order for loading and departing and if met at sea by any of her Majesty's ships shall be permitted to proceed if upon examination it shall appear that their cargoes were taken on board before the expiration of the above term, providing they have not any officer in the naval or military service of the enemy or any article prohibited or contraband of war, or dispatched to the Russian government. Also that if any Russian vessel, which prior to the 29th of March, shall have sailed from any foreign port for any of her Majesty's Indian territories or colonial possessions, shall be permitted to enter such port or place and discharge cargo and forthwith depart without molestation, and that any such vessel, if met at sea by her Majesty's ships, shall be permitted to continue her voyage to any port not blockaded.

Mustapha Pasha is advancing his troops in three lines in the direction of the Trajan wall.

On the 27th the fleets were between Baltchick and Varna.

The Turks had beaten Gen. Ushakoff in Bessorbia and forced him back. They have also crossed the Danube at Nicopolis and Rustchak.

No battle has yet taken place on the Baltic.

The Russians have dismantled their fortresses on the island of Aland.

In the House of Commons, on Friday, Lord John Russell confirmed the statement that Austria was concentrating troops on the Pendleing. He would not state what course Austria would pursue.

It is now rumored that Austria will make the crossing of the Balkans by Russia a *casus belli*.

CARD.

HEMENWAY & HERSEY take this opportunity to tender their thanks to their numerous friends and the public for, and solicit a continuance of, the very liberal patronage they have hitherto received. They would now invite the attention to their new and elegant Sales Rooms, at No. 3 Exchange Block, at the corner of Exchange street and Kenduskeag Bridge. These Rooms have been fitted up in the most approved modern style, for the accommodation of our friends upon the East Side, and together form one of the most convenient and attractive establishments of the kind in the State. Here we shall keep constantly on hand a very large, rich, and well assorted stock of every variety of goods in our line of trade.

We may also be found at the Old Stand, No's 18 and 20 Main street, where we shall continue to keep the same rich and extensive assortment of Goods as heretofore.

HEMENWAY & HERSEY.

Dr. Langley's Root and Herb BITTERS.

A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for Ladies; sure to do them good.

SPRING HAS COME.

Read, consider, reflect! and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Languor, Faint, General Debility. Now then, if you wish to relieve all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good, and never hurt. Let each and every man, woman and child have a bottle at only 25 cents a pint, 37½ cents for a quart bottle.

Now Nature, herself, a sure remedy brings
Which cleanses the current of life at its springs,
From fearful Diseases that bear to the grave
Langley's Root and Herb Bitters shall thy save.

There's scarcely a dangerous disease we can name,
In which the Root and Herb Bitters have not acquired fame,
And so safe is their action they cannot do harm,
While they strengthen the system ... like a charm,
Are you Temperance folks— ... need
No drink alcoholics by it infused,
Nor need the fond mother feel anxious alarm,
To the tenderest infant it cannot do harm.

Is your Liver disordered? is Jaundice your bane?
Then Langley will deal with the monster ...
Do you suffer from Headache— ... relief;
For Piles ... of all cures acknowledged the chief;
The motto of "Buy me and I'll do you good,"
The test of experience has ... stood—
And many who ... this truth will attest,
That the Root and Herb Bitters ... Friend.

Is your Appetite gone, then the Root Bitters take.
And you'll heartily relish your cling as you steak;
The blood it will purify—redden your cheek,
And strengthen your frame should it ever grow weak.
The ladies declare no such Remedy was ... ,
And the sale is immense to the Fair Sex ... !
No wonder, the Bitters make Langley ...
Brings new bloom to the lip, new ... to the eye!

Sold in Bangor, wholesale and retail, by Ingraham & Fuller, Guild & Harlow, and by all Druggists and dealers in Medicine in Brewer, Orono, Oldtown, Stillwater, Hampden, Frankfort, and Bucksport, at 25 cents a pint and 37½ cents for a quart bottle.

Joseph Gillott's Steel Pens!

Infringement of Trade Marks!

AT THE GENERAL TERM OF THE SUPERIOR COURT, held at the City of New York, March 11th, 1854, in the case of GILLOTT vs. LEWIS A. KETTLE, the order of the Special Term was affirmed with costs.

THE above action was had against the defendant for the sale of Pens in boxes from which the original labels had been removed and other labels placed thereon, purporting that the pens were the Genuine No. 303, manufactured by the Plaintiff.

Notice is hereby given, that legal proceedings will be commenced against all persons detected in the sale of Pens bearing said changed labels.

A Reward of One Hundred Dollars

will be paid to the printer of said labels, or any other person who will enable the Plaintiff to make proof of the quantity of labels so printed, and the persons for whom they were printed.

Caution to Consumers.

Please observe that each Genuine Pen No. 303, has the said number stamped thereon, with the maker's name in full. HENRY OWEN, ap21—1mis Agent, 11 John-st, N. Y.

CITY OF BANGOR.

An Ordinance in addition to an Ordinance further providing for the Regulation of the Police.

Sec. — be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled,

That annually in the month of March or April, in each other times as the Mayor and Aldermen ... deem it expedient, a number of special Deputy Marshals not exceeding twenty in all may be nominated and appointed as is provided in said ordinance, to which this ordinance is in addition, passed March 7th, 1853, and that said Marshals thus appointed, shall be called "Special Deputy Marshals," and shall be removable at the discretion of the Mayor and Aldermen, and shall each, before entering upon the duties of the office, be sworn as "Special Deputy Marshals," and give bond to the city, with sureties to be approved by the Mayor and Aldermen, in the sum of Two Hundred Dollars, for the faithful performance of the duties of his office and the obligations of this ordinance; whereupon said Special Deputies shall possess and exercise, under the direction of the City Marshal, all the powers now or hereafter vested in the same. Said Special Deputy Marshals shall, when on duty, wear a badge with the word "Police" upon their hats or caps.

Sec. 2—Be it further ordained, That all the special "Deputy Marshals" elected under this ordinance shall be Police Officers, and exercise all the powers authorized by the Act of the Legislature entitled "An Act giving additional powers to Cities," approved June 15, 1847, and shall hold their office, unless removed by the Mayor and Aldermen until others shall be appointed and qualified in their stead.

Sec. 3—Be it further ordained, That no compensation or salary shall at any time be made from the City Treasury to any of said Special Deputies.

Green Mountain Vegetable CEMENT,

FOR joining Broken China, Glass, Earthern Ware, Metals, Wood, Cabinet Work, and Fancy Articles of every description. This Cement, which has been proved to be of great strength, will be found particularly useful in every family. The simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used, are so numerous, that it would be difficult to recite them. Its success in mending Glass, China, &c. is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be made useful for years which otherwise would have been cast away. The above article may be had, wholesale or retail, of GEO. W. EMERSON No. 4 Smith's Block, General Agent for the State of Maine. mch21 d&w

To E. L. Hamlin, one of the Justices of the Peace within and for the County of Penobscot.

THE undersigned, members of the Kenduskeag Log Driving Company, request you to issue a warrant to one of them, directing him to call a meeting of said Company, to be held at the counting-room of Stetson & Co., in the city of Bangor, on SATURDAY, the twenty-ninth day of April instant, at ten o'clock in the forenoon, to make choice of all officers necessary for the business of said company, and to act upon such other matters as may be legally brought before said meeting.

Bangor, April 11, 1854

STATE OF MAINE.

To Aaron A. Wing, of the city of Bangor, in the county of Penobscot, and one of the members of the Kenduskeag Log Driving Company,

GREETING:

Whereas Aaron A. Wing, Samuel Thurston and L. J. Morse, members of the Kenduskeag Log Driving Company, have applied to me, E. L. Hamlin, Esq., one of the Justices of the Peace, within and for said county, requesting a certain Warrant to you, the said Wing, directing you to call a meeting of the members of said Company, to make choice of officers necessary for said Company, and to act upon such other matters as shall legally come before said meeting, to be held at the counting-room of Stetson & Co., on Saturday, the 29th day of April instant, at ten of the clock in the forenoon—

You are hereby required to notify and warn a meeting of the members of said Company, to be held at the time and place and for the purposes aforesaid, by publishing a notice thereof in the Daily Whig and Courier, a newspaper printed in said Bangor, two weeks successively the last publication to be before the day of meeting. And have you there this warrant with your doings therein.

Dated at Bangor the twelfth day of April, in the year of our Lord one thousand eight hundred, and fifty-four.

E. L. HAMLIN,

Justice of the Peace throughout the State.

NOTIFICATION.

Pursuant to the foregoing Warrant, to me directed, I do hereby notify the members of said Kenduskeag Log Driving Company, to meet at the time and place, and for the purposes aforesaid.

Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French st. and Broadway, and a street laid out, 75 feet wide, in the range with Broadway, (and runs from State Street to the Park. This street is laid out about 100 rods through my lands, extending over the west end of Mt. Pleasant. This land is north of and much higher than the Park, having a commanding view of the city and surrounding country.

Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Boom's Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, (as may be seen on the books of the P. A. Society,) and oats, hay and potatoes in that proportion. Some judgment may be formed also of my land for Fruit Trees on my lot near the city, by examining my bearing trees and our Fruit Nurseries.

My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three turns a day, it being one of the easiest roads running out of Bangor.

Liberal terms will be given as to, and the size of the lots made to suit purchasers.

N. HARLOW.

Bangor, March 25, 1854

If any person, not advanced in life, should appreciate the probable results of a few years good business in Bangor, of purchasing land from an original lot, beginning at East Market Square, (the northerly part of Lot No. 88, Holland's Plan, is referred to,) where three leading and important streets are laid out passing into our great and important northern and western country, he can now do so. These streets will afford some of our finest seats for elegant Houses and valuable Fruit Establishments, without exception. It is only a strong wish to be relieved from part of my cares, and that of closing business of this kind which could induce me to sell at this time by the quantity. N. H.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two Bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to six bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases, but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get, and enough of it.

ROXBURY, Sept. 19, 1853.

This is to certify that H. H. HAY, Druggist, Portland, is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

No. 7 State Street opposite Kilby St., BOSTON.

IMPORTANT INFORMATION TO INVENTORS. The subscriber late Agent of the U. S. Patent Office, under the Act of 1837, determined to present advantages, in applying for patents superior to those offered inventors by others, has made arrangements whereby applications prepared and conducted by him, THIRTY DOLLARS instead of twenty as paid back by others will be remitted by him in case of failure to obtain a patent, and the withdrawal of which him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patent. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE."

Late Commissioner of Patents,

PATENT OFFICE,

R. H. EDDY, Esq., Boston, Mass.

Sir—Your facilities for prosecution of any business connected with the office, are equal to those of any other agent. I am very respectfully yours, &c., THOMAS EWBANK.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but still not forever.

BOSTON, Jan. 5, 1838.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiar form of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M.D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us over twenty years) and therefore speak from personal knowledge of his abilities. His early advantages, his long experience in the business, and the large number of individuals whom he has relieved in a variety of cases, render him in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gideon Foster, of Charlestown, was master of the business in that town for upwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity, and made application of Trusses in a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that as great excellence consists in its adaptation to the body, at the same time relieving the patient. Any ordinary mechanic may make a Truss, but none but a skilful practitioner can apply it to such a manner as effectually, and effectually, radically cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly obtained this knowledge. The certificate of Dr. J. C. Warren, and other eminent surgeons which he has shown to us, fully sustain the opinion we here express.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr. CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr. CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on diseases of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs; that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

BROOKLYN, N. Y. Dec. 29, 1853

For about eight years I have been severely afflicted with the Asthma: for the last two years I have suffered beyond all my powers of description: months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair! My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr. Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it, I was suffering under one of my most violent attacks, and was in great distress, almost suffocating for want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach, and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a comfortable night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it.

MARGARET EASTON.

CONSUMPTION CURED!

NEW YORK, Dec. 27th, 1853

I came to New York in the ship Telegraph; my native place is St John, New Brunswick; when I reached this city my health was very poor; had a bad cough, raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I verily believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so, my cough gradually growing better, until it entirely left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it. JOHN WOOD.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this vast country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control the various of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following—and refer further enquiry to my American Almanac, which the agents below named, will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Laurens R R. S. C.,

Aug 4, 1853.

J C Ayer: Dear Sir—My little son four years old has just recovered from a severe attack of Malignant Scarlet Fever, his throat was rotten, and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by ten o'clock at night I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieved the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it the best medicine extant. A feeling of the deepest gratitude prompts me in addressing you these lines;—but for your important discovery my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt Trans., L. R. T.

Rock Hill, (Somerset Co.) N. J., July 21, 1847.

Dr J. C. Ayer—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unbounded praise by those who have used it, and I know of some cases where the best they can say of it is not too much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours, with respect, JOHN C. WHITLOCK

WILBOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed and which has been tested successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITIS, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place in the lungs, this article has been found, by the most careful tests, to supply the very ingredient necessary for the formation of cells, and the complete healing of the delicate parts of the human system

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids. The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced, which is of inestimable value to a climate like ours.

A long array of certificates might be given here to prove the efficacious character of this medicine. but it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

DR. MORSE'S

Invigorating Cordial,

......A......

Phenomenon in Medicine.

Health Restored & Life Lightened by

Dr Morse's Invigorating Elixir, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms, in search of something that should restore the lost or decaying energies of the procreative and muscular systems, without the drawback of subsequent prostration, which all stimulants sooner or later have hitherto entailed. *That something has been found.* It is a vegetable production brought from the sterile deserts of Arabia the Stony, by the celebrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished as a physician, a chemist and a traveller. The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results hitherto unheard of, in this or any other country. At first the properties attributed to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL, were deemed fabulous. The public often deceived *could not believe* the extraordinary and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphant over all doubts. Incredulity is overthrown, by a mass of testimony which is perfectly irresistable.

The ELIXIR removes, in all cases, the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the *reproduction of human life*. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ will all find immediate and permanent relief, from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicines. Let not even these despair. The ELIXIR deals with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

REBUILD THE BROKEN CONSTITUTION.

The derangements of the system leading to nervousness, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia, tic doloreux, headache incipient paralysis, hysteria palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine

Whenever the organs to be acted upon are free from malformation or structural diseases it is averred that

MORSE'S INVIGORATING ELIXER

Will replace weakness with strength, incapacity with efficiency, irregularity with uniform and natural activity, and this not only without hazard of reaction, but with a happy effect on the general organization. Bear in mind that all maladies, wherever they begin, finish with the nervous system, and that the paralization of the nerves of motion and sensation is *physical death*. Bear in mind, also, that for every kind of nervous disease the Elixir Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES.

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system. Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.

LOSS OF MEMORY.

Confusion, giddiness, rush of blood to the head, melancholy, mental debility, hysteria, wretchedness, thoughts of self destruction, fear of insanity, hypochondriasis, dyspepsia, general prostration, irritability, nervousness, inability to sleep, diseases incident to females, decay of the propagating functions, hysteria, monomania, vague terrors, palpitation of the heart, impotency, constipation, etc., etc., from whatever cause arising it is, if there is any reliance to be placed on human testimony, absolutely infallible.

A GREAT MEDICINE FOR FEMALES.

The unparalleled effects of this great restorative in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorants concocted—all purporting to be specifics in the various diseases and derangements to which the delicate formation of woman renders her liable. The result has heretofore been uniform. These nostrums have indeed imparted a momentary vivacity to the nervous system, a transient and delusive vigor to the muscles; but this flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been utterly to paralyze the recuperative power of the nerves and the vital organization, and finally to destroy the unhappy patient.

EVERY WOMAN OF SENSE,

Who suffers from weakness, derangement, nervousness, tremors, pains in the back, or any other disorder, whether peculiar to her sex, or common to both sexes—to give the Invigorating Cordial a trial.

MARRIED PERSONS,

or others, will find this Cordial, after they have used a bottle or two, a thorough regenerator of the system. In all directions are to be found the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Thousands of young men have been restored by using it, and not in a single instance has it failed to benefit them.

PERSONS OF PALE COMPLEXION,

or consumptive habits, are restored by the use of a bottle or two to bloom and vigor, changing the skin from a pale, yellow, sickly color, to a beautiful florid complexion.

TO THE MISGUIDED.

These are some of the sad and melancholy effects of the early habits of youth, viz. weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are much to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self distrust, love of solitude, timidity, &c., are some of the evils produced. All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, indeed, without these, the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with your own.

PARENTS AND GUARDIANS

are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idiocy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is, that they have been indulging in a pernicious, though alluring practice, destructive to both mind and body.

CAUTION.

Dr. Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of everybody, and it is confidently believed this pill will answer a better purpose than any which has hitherto been available to mankind. When their virtues are once known the public will no longer doubt what remedy to employ, when in need of a cathartic medicine.
